How do I know what to study?

The Exam Format and Specifications on the last page provides the breakdown of subjects tested on the examination and is based on federal rules and procedures. The examination tests on general knowledge and concepts in each of the areas listed on the outline. Most areas are included in paralegal studies curricula or are areas commonly practiced by paralegals as evidenced by the responses to the 2016 Job Task Analysis Survey conducted in the Fall of 2016.

Suggested sources for study are listed on the NALA website. These sources are provided for information only; candidates are not required to purchase any of these materials. Successful completion of the Certified Paralegal Examination depends on many factors, including educational background and experience. It may be helpful to determine the most familiar areas and focus on areas that may require additional study.

The function of the NALA Certifying Board (“Certifying Board”) is to test knowledge, rather than teach the test. In accordance with the NCCA accreditation requirements, the Certifying Board is not involved in the development or delivery of any CP exam study materials, preparation materials, or products; and the developers of those materials and products do not have access to any CP Exam content. The Certifying Board does not require, approve, endorse, or recommend any specific study materials or methods to be used by examinees. The Certifying Board has no involvement with the NALA online study group nor does the Certifying Board provide any information, answers, or responses to questions posed by the online study group.
